Covid 19 update

Following on from the advice from NHS England and the Chief Dental Officer for England we are currently still triaging patients before any appointments are booked and during the covid alert level 3 our front door is closed.

All routine examination appointments until the end of September have been cancelled.

Patients are being assessed on a need basis prioritising pains, swelling and trauma .

Appointments are available currently to treat all forms of pain. We are working with extra cleaning, precautions, high level PPE and air purification systems in place .

Our priority is currently given to those with pain and incomplete treatments , following on from this we will be seeing patients who are vulnerable and high risk (3 month recall) with routine check ups being seen later. If you require a regular 6 month check up these are currently being booked from January onwards, if space becomes available before then the appointments will be brought forwards.

If you have a dental emergency please call us ,otherwise we will be contacting patients to book examination appointments on a need assessed basis .

We thank you for your understanding in these unprecedented times.

Best Wishes

Drake Dental
