

Drake Dental Practice

Further to NHS England and Chief Dental officer guidance on 25th March 2020 the practice is currently unable to see patients for routine and non urgent dental care and as such all appointments until the end of April have been cancelled.

If you have a dental emergency we are offering a triage service to direct you to the appropriate service or give you advice, anaesthesia or antimicrobials depending on your issue .

If you are a regular patient and have a dental emergency please call us on 01706 644717 for triage . Thank you !
